

## APH Annual Meeting

October 6-8, 2021 • Louisville, KY

### Why Attend APH's Annual Meeting in Person?

#### Connecting

- Build a stronger sense of community after a long period of distance and communications breakdowns.
- Network with over 400 professionals from the field of blindness and visual impairment. Make connections with fellow EOTs, APH staff, and other leaders in the field to strengthen your professional presence and build a support network.
- Interact with the teams that develop APH products and provide APH services, have meaningful conversations, and be heard by APH staff.
- Celebrate the achievements of yourself and fellow EOTs and teachers after a difficult year and a half.
- Share best practices and lessons learned during the COVID pandemic.

#### Learning

- Get hands on with new products (and some APH classics!) so you can confidently recommend them to educators and students.
- Participate in structured discussions with APH staff to ensure you are getting the most out of products and resources APH has to offer.
- Attend breakout sessions with APH staff in areas of interest to your constituents.
- Be in the know about the future of the field by communicating with other leaders in the field.
- Get interactive with participant guided discussions to learn about the topics of importance to other EOTs.
- Be inspired by those around you to ask new questions, approach things differently, and share best practices with other EOTs.
- Attend related meetings (COSB, POSB, Prison Braille Network, IRCBVI)
